PROFILE SUMMARY

Aspiring DevOps Engineer who has implemented automation, configured secure cloud workflows, and streamlined deployment processes through consistent hands-on practice. Managed infrastructure tasks, monitored performance, and optimized operations to support scalable, reliable system environments..

EDUCATION

IIMT University

Meerut, Uttar Pradesh

Bachelor of Computer Application

2021 – 2024

- Achieved Top 1% in Academics
- Participated in University Tech Events
- Researched in Cloud Computing and Cyber Security and Forensics

SKILLS

Technical skills:

Tools: SQL, Docker, Kubernetes, Ansible, Jenkins CI/CD, Linux

EXPERIENCE

Internship

Bengaluru, Karnataka

Cloud Computing Intern

2021 – 2022

- An EdTech startup wanted to ensure only verified students and instructors could access sensitive course content in their Azure-hosted learning portal.
- Categorized and Assign user roles (students, instructors, admins) with defined access scopes using role-based access control (RBAC)
- Adapted role-based access control using Azure Active Directory to secure **100% of Critical Endpoints** in a student learning portal.
- Reduced unauthorized access attempts by over **80% within the first Two weeks**.

PROJECTS

Grafana-Monitoring-Stack

2021 2022

- programmed and Configure Grafana Monitoring Stack (Grafana, Loki, Promtail, Node Exporter) on AWS EC2 to achieve real-time observability.
- constructed custom Grafana dashboards and alert rules to proactively track CPU, memory, and I/O bottlenecks
- Streamlined open-source monitoring, saving **30% in costs** compared to paid monitoring tools.

Serverless Deployment on AWS

2022–2023

- Implemented a fully serverless application using AWS Lambda, API Gateway, DynamoDB, and S3 to build a scalable, cost-efficient architecture.

- Configured CloudWatch for real-time log monitoring, reducing troubleshooting time by 70%.
- Saved \$2,500+ annually in hosting and scaling costs while improving agility and uptime

ACHIEVEMENTS

- Earned Microsoft Azure Fundamental AZ-900 Certification at 1st Attempt
- Achieved Certificates in cloud Computing and Cyber Security, Forensics From IIT Kanpur.
- Gained a Badge in Technical Partner Pro Cloud Devops From Intel Corporation
- Earned a Badge in Cloud Security From Intel Corporation
- Earned academic Rank 1 and was entrusted by instructors to assist, educate, and advise during advanced Cloud and Cybersecurity sessions due to deep subject understanding and proactive learning.
